Subject: No spring game planned in the stadium

Doug,

Trev had challenged me with the signing of Jordy Bahl to consider options for a regular season SB game in Memorial. Rhonda was already committed to our current spring schedule thus won't be hosting anything this spring. Even with the South Stadium implosion after next FB season, if possible, we would like to host a game in the stadium in the spring of 25. Home plate would be in the NW corner (old tunnel walk entrance) hitting toward mid-field (outfield temporary wall) and I know there would be plenty of seating without the south endzone and nearby areas which would be off limits due to a construction zone. Rhonda has indicated WASHINGTON would be the ideal opponent as they are a perennial College World Series team and their ace pitcher is from Nebraska which would help draw an even better crowd. Again, nothing planned for this coming spring. Thanks Doug!
