

But first, I want you to see EXACTLY WHY this photo of Lt. Col. Allen West creates chaos in the hearts and minds of liberal Democrats all across this country...

...This photo shows a fearless man, proud of his military service holding a firearm for self-defense who doesn't need the government's or Nancy Pelosi's protection!

This is NOT what the Democrats want from black Americans!

As a career law enforcement officer and former Police Chief, this photo is awesome because it presents the two basic things every American -- blacks included -- can achieve on his own...

...Security AND freedom...

It embodies why I am proud to be a Republican!

Sadly, the Democrat-loving talking heads at CNN, MSNBC, and the rest of the liberal media think this photo is what's wrong with America. They absolutely hate freedom-loving blacks who refuse to toe the liberal line!

As a conservative Republican who reveres the Constitution, it disgusts me that Nancy Pelosi and her Democrat allies in Congress would love to take away Lt. Col. Allen West's right to defend himself. These Democrats despise freedom-loving blacks who reject their liberal stereotypes!

Fortunately, when the Founding Fathers wrote the Bill of Rights -- like it or not -- they applied it to every one of us!

Yet today's left-wing Democrats have stopped calling for individual responsibility, and instead favor mandatory subjugation of our freedoms to the federal government.

Using race, ethnicity, and gender as a political weapon, they shamelessly exploit even the slightest of tension to help the Democrat Party win elections.

In fact, to hear Hillary Clinton tell it, she lost not because she was under criminal investigation by the FBI or an unapologetic liberal of the highest order, but because white women couldn't stand up to their husbands! What a joke!!

Today, as a conservative black Republican running for U.S. Congress, I realize I'm a danger to the Democrat Party not because I carry a firearm, but because I carry the U.S. Constitution!!

I'm ready to go to Congress and fight to fix our country
