

Crosstabs
July 2024 National Poll

Field Dates:	July 29, 2024 – August 1, 2024
Sample:	1,000 Respondents
Margin of Error:	3.8%

YouGov interviewed 1,123 nationally-representative respondents who were then matched down to a sample of 1,000 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education. The sampling frame is a politically representative "modeled frame" of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, region, and home ownership. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on region (4-categories), 2020 presidential vote choice, as well as a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories) and a two-way stratification of race (4-categories), and education (4-categories), to produce the final weight.

HARRIS VIEWS (% AGREE)

		Kamala Harris is the Democratic nominee for president due to DEI efforts.	Kamala Harris is not eligible to serve as president.	Kamala Harris is a stronger presidential candidate than Joe Biden.	America is ready for its first African American female president.

BIDEN VIEWS (% AGREE)

		It was the correct decision for Joe Biden to not run for re-election.	History will look favorably at Joe Biden's decision not to run for re-election.	Given that President Joe Biden has decided not to run for re-election, he should resign from the presidency.	Joe Biden was correct to endorse Kamala Harris to be the Democratic Party's nominee for President.

SUPREME COURT REFORMS (% SUPPORT)

		Increasing the number of justices on the U.S. Supreme Court?	Establishing term limits for justices who serve on the U.S. Supreme Court?	The president nominating and the Senate confirming a justice to the Supreme Court in an election year.	Requiring Supreme Court Justices to recuse themselves from cases which involve a conflict of interest.
