Cut out all 20 cards above and on the following page. Place the cards face down on a flat surface and spread them out so they are not on top of each other. Player 1 flips two cards to try to find a matching pair. If the cards match, Player 1 keeps the cards and gets to go again. If they do not match, the cards are flipped back over and it is Player 2's turn. Continue until all the pairs are discovered. Whoever has the most pairs at the end wins!
