Students,

As we get ready to head into the month of October and the end of first quarter, I want to take this time to talk about a disturbing trend that seems to have started on Tik Tok since, in September, we saw the costly and unnecessary destruction of so many of our bathrooms.

Let me be very clear—next month’s, “smack a staff member on the backside,” will come with consequences according to our District’s Student Code of Conduct.

We, your administration, know of the monthly Tik Tok pranks, and that is why we want to take this time to explain what it means if you chose to execute them.

Putting your hands on another classmate or staff member against their will, could/will result in assault charges, possibly including sexual assault charges. Depending on the situation, not only can suspension be a punishment, but also actual criminal charges which will require a court date and a police record. Our District Code of Conduct states, “Class III and IV offenses are behaviors that may seriously jeopardize school order and security. School officials will treat these behaviors very seriously. Accordingly, the responses in Class III and Class IV may include but are not limited to, short-term and/or long-term suspension”.

I say this all to you now, because I really want you to think about your actions and what they can mean for your future. We need to all stay focused on the goal of getting an education. Anything other than that does not have a place in this school building or in this school district. Please take the time to review the District’s Code of Conduct principles, rights and responsibilities.

If you have questions for me, I am here. Please also reach out to your School Counselors and Social Workers for additional support.

Sincerely,

Name
Principal
