## **MEDIA RELEASE**

A Snapchat message has been circulating warning students not to go to school, and making specific threats against Los Lunas High School. This same type of Snapchat message has been circulating in numerous schools throughout the state this week, following the tragedy in Florida.

The Los Lunas Schools are committed to keeping our children and staff safe every day. We have strong security measures in place at each and every one of our schools. The Los Lunas Schools takes all threats seriously, and we are diligently working with local law enforcement agencies, to find the person or persons responsible.

We do not take threats against our schools or our students' safety lightly, and always investigate any threat made to them. It is very disturbing that people would use a national tragedy to try to instill more fear. It is unfortunate and disappointing, that social media can be used without a good tracking mechanism to deter people from making threats such as this.

We need your help. We ask that anyone having any information regarding this threat contact the Los Lunas Police Department at 865-9130, or the Los Lunas Schools Director of Safety and Security, Desi Garcia, at 866-8282.

Together, we will continue to keep our students and schools safe.
