

Good evening, Germantown School District Families,

Germantown High School Administration was made aware this afternoon, October 11th, that a GHS teacher played a video that exposed the class to inappropriate content during a class period. The teacher in question has been placed on leave indefinitely, and the administration is investigating the report. Today's report does not coincide with the communication from last Friday regarding a similar situation. Due to privacy concerns and the ongoing district investigation, we cannot share additional information.

The Germantown School District does not condone the use of inappropriate instructional materials, and we do not take these incidents lightly. An immediate audit of all district supplemental instructional materials will take place related to the GSD Policy 2523 SUPPLEMENTARY INSTRUCTIONAL MATERIALS, which the Board of Education approved on September 9th, 2024. We appreciate your support as we investigate these matters and follow due process and district policy.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christopher Reuter'.

Dr. Chris Reuter
District Administrator
Germantown School District
