

Opening Statement-

(These are mere ~~s~~thoughts of an uneducated fool--so sorry.)

Modern trials eliminate all that is human--feeling, emotions, thoughts, heart, soul, love, everything that matters -so how does a jury, judge without all of thati- it must be offeredi--as it is everythingh. What is in ones heart and mind is everything in the world, that matters ---it is Intent--an Intent is the whole of who we are; it decides our every action every second of every day. The overriding question of why we each live revolves areound Intent. Why are we each herea?? What is our Intent everyday--is n it not to care for one another--to help each other--to be kind--to love one another--to hold one another. Is that so difficult? How do we get so derailed and filled with hate when 1.52 milklion years ago two different human species Paranthropu^s Boisei and Homo Erectus crossed paths in the mud of Kenya peaceully and civilized. Can you imagine their meeting, would shaking hands come natural, would a smile be rendered, a knod of the head, would they communicate through their eyes and simple gestures of love and cooperation--all of the gentle caring for one another recorded and preserved there in the mud, forever-how amazing. And where will the human species be in another 1.52 million yeats, if ~~we~~^{ids} cannot learn to get along. A million and a half years ago there was No Intent to harm anyone, yet now, Hitler caused the slaughter of 80 million as America watced^k for years, Putin has murdered 1.5 million and we do nothing, the Sudanese and Arabs kill 150,000 and rape and we do nothing, Netanyahu slaughtere 60,000 and we support his genocide; what has h^ahppened to homo erectus? And how did everyone contribute to the^s madness and hatred--did we allow 7 s phone calls to Putin trading

a war for re-election. Did everyone sit silent and allow a budding partnership with Iran be destroyed, and embassy to be moved, illegal West Bank annexation and accords putting Arabs at odds and not expect it to explode. The world is not that stupid. What was his Intent, all Malicious. How could America vote away all hope for the world- 14 million expected to die in Africa over the next five years because of his selfishness and greed. The Chinese hang themselves in public spaces in protest as all hope for them is gone. One American life has absolutely no value against the immense tragedy that America has caused. A nation founded on human rights, kindness and caring, freedom and the pursuit of happiness for all, has been erased and eliminated. What was the Intent; what was in the brain of the American people. Afghans likewise hang in the public square like meat draining, babies and mothers with the heads lopped off, set on the kitchen table, our coalition partners with their arms and legs cut off bleeding out in the street and daily horror-three administrations failed with basic humanity- So one American life means nothing; useless, worthless. What does an Afghan think as he struggles to crawl away before his head is cut off-where is my fellowman. The Syrian placed in the car crusher and pulverized alive at Sdnaya- he wonders, where is my fellowman--we are ^{Am Soldiers} just miles away doing nothing. The Palestinian starving, cut down with an American bullet or bomb wonders what has happened to humanity and his caring fellowman. The Sudanese girl gets raped and murdered and thinks why does no one care about me? And the Haitian girl constantly raped and murdered questions how the largest military in the world sitting just miles away can watch

3
this horror and do nothing- how is that possible. No, there is no value of human life--so one American life certainly has no value- it is guaranteed. Apathy- a world of Apathy-where the cost of eggs is all that matters, and the 401k. Perhaps in the next Million and a half years we can humans can learn how to care and to navigate democracy; hoping it is innate Intent in the DNA; but it is not- we must learn. America has failed-it has turned its back on all morality and basic human decency that is the every foundation of a nation and humanity. The damage is done, we have crushed the simple common worker around the globe with tariffs that have uprooted life, showing that we no longer care. Every tiny signal to our fellowman that we care for and love them is erased, from democratic radio to food to medicine to the smallest support so they can farm, ripped from their hands in heartless fashion- what callous animals America has become. America stands for nothing, a hollow empty shell --just as the defendant that stands before you- once vibrant with life and hopes and dreams all came crashing down, so there is nothing left. America and the defendant are now nothing, useless, expendable, worthless-THIS---THIS is all a waste of time, as there is no value remaining-noting. This defendant is void of all hope, just like his close friends in China, with the rope around their neck hoping to end the hopelessness and pain. Just like the dear Afghan soldier standing high atop a building sending a picture of ending the struggle for a decent life without the ^htreat of slaughter--America has eliminated all hope for everyone. Even the slightest sliver of a chance to live in America has been snatched from the minds of every poor person the planet--the 1 percent

chance of a better life gone. All of the migrants arrested out of hatred and racism whose lives now no longer have purpose or meaning; just as this defendants-and for what. The Nigurangian is now weeping here in his cell against the door, as there is nothing left for him, a flight back to nothingness and more hopelessness--what for. How many lives is this administration bent on destroying across the globe. How many will make them dance for joy--perhaps gas chambers again, would make them happiest. Is that their ultimate Intent--malecious Intent. Both sides will argue- Intent, INTent, Intent to sway one to think the other more EVIL. Life and death and the pursuit of happiness hangs in the scale of justice. And the world knows the ultimate goal of this administration, to push its citizens to the breaking point of insurrection to enact Martial law toward eliminating all elections so the ruler can stay in power. It is the sole reason for creating all the conflict and chaos as a war is needed to retain power thus all the ribbing of Canada and Mexico and all. But Donald R Trump was not even eligibal/elligibal to be elected by our longest 14th Amendment which states-"No person shall be a Senator, or Representative, in Congress or elector of President or Vice-President, or hold any office, civil or military, under the United States, or under any state, who, having previously taken an oath, as a member of Congress or as an officer of the United States, or as a member of any state legislature, or as an executive or judicial officer of any state, to support the Constitution of the United States shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof."

dangerousness

eligible
disqualification to hold office

INTENT #1

5

The amendment is extremely clear, the most clear of all of the amendments as it plainly~~s~~ states that you cannot run for any public office if you engaged in any insurrection or rebellion or even gave aid or comfort to the enemies thereof, which seems to have been written specifically for the actions of Donald= Trump. He was not even allowed to be on the ballot for any position, much less president; how did America fail as stewards of our democracy to not enforce our own constitution- what have ~~been~~ done. So, NO, Trump is not a major presidential candidate; he is not a candidate at all; an illegal candidate at best. How did America^{miss} all this.?? — ?

Our forefathers greatest fear, so they gave us the very specific tool to prevent such a catastrophe as this, yet we failed to read it, and act. And America ceeds all power to criminal intent and selfishness, greed and arrogance. A lust for gold gilded palaces against a defendant that in his twenties buys the opposite, a simple rundown hundred year old log house whose face has only a door and no NO windows.

What greater contrast could there be, our ruler in grand opulence and a defendant working with a 52 chevy he purchased for 75 bucks.

And this case hangs on Intent---what is in ones heart---what fills ones brain on morals and the ethics and human decency of doing the right thing all of the time. That is what hangs in the scales here;;- Intent--what is a persons intent every second of every day; what do they hold dear to their heart to guard and protect and cherish and do everything to save. In the defendants world extreme joy is felt in being gifted hearth stones that have been worn smooth over a hundred years of children huddled by the fire and the pleasure of just running ones hand across the smoothness. To touch a hewn

log and run ones fingers across every chop of the broadaxe and wonder what that American was thinking 100 or 200 or 300 years before as he struggled to provide shelter for his family. For one to stand 15 feet down in a well dug by hand and marvel at the stacking of stones so there could be a bucket, rope and water. The treasure treasure of finding some old fabric and its feel and texture and worn softness seems magical. Old boards cut and the markings of the teeth of the saw as it was pushed back and forth-that is beauty. A wooden pg/peg whittled, a hand made brick, teh Laying-Out board, the split wooden shovel handle worn thin, teh clack of the Locust boards as one crosses the old wooden bridge, the old tractor and wooden trailer bruised adn scarred from decades of hard labor, the hundred year old Lathe and drill press saved from the scrap yard-the exact same as used by Henry Ford and the Wright borothers, such wonderment in their function and wear, the leather belts chugging them along towards fullfilling hopes and dreams and ideas. That is America. So No, this case means absolutely nothing. A life has been lived to the fullest, there is nothing more that is wished, or desired or needed--all has been fullfilled in the simplest most humbele and modest fashion in the most ga magnificent manner -the g the greastest joy has been had. The defendant needs nothing more, as life was overflowing and all is done. But one must wonder the extreme loniliness and pain of uncertainty that the Wright brothers must have felt-(since they have been Mentioned) What unwavering peristnece and perseverance to forge ahead alone on rickety boats to the barren Outer Bankkss and teh harsh elements struggling to do the impossible that might certainly fail--that

is the whole of everything that America is and represents-our country in one story- complete. Perhaps the Defendant connects to the pain and loneliness the Wright brothers must have felt, having himself been left stranded on the outer banks by law enforcement left to walk and ironically take a small plane to Virginia to get home- perhaps the struggle and pain resonates, or one walking 10 miles to get home as the fleet of vehicles are gone away and not a dollar available for transport---that is loneliness. Or one wrecking their car at night in the rain and walking in the wet for hours to get home- that again is real. The defendant's forklift gets stuck on an early Sunday morning extracting logs from an old house and all rides are in church and he must walk again in the solitude and wet for hours for a truck and chain. Five years spent alone stacking rocks, salvaging logs and wresting into place, hewing rafters, chinking holes, every detail on and on to fashion a home for one's family out of discarded historic rubble. A small guest house, logs stacked to preserve^{them} but rot away as the years tick by. Another log house taking 4 or 5 years and great effort and cost to move^{whole} collapses to the ground--that is the tremendous pain this defendant knows. A workshop and a historic garage crushed under the weight of heavy snow, lost and torched, that is the sadness this defendant has endured. So the results here are of no consequence, as life is done, every ounce of American motivation and determination were put forth and ended in nothing. A business, a skatepark, a classroom, wooden bikes, every invention, every idea, every hope, every dream crushed leaving nothing but failure. Natural selection has already rendered its verdict- you are too late.
