Dear Amador County Families:

It is with disappointment that I report an incident that occurred on one of our school campuses yesterday after school. As the first day of school comes and goes, there are always hiccups along the way, especially during this trying time. Unfortunately, a parent took it upon himself to verbally assault a principal that led to a serious physical altercation between him and a teacher as the teacher intended to protect the principal.

If I ask nothing more of you this school year it is this. Take a breath, pause, listen, and walk away if necessary. Assaulting a staff member will never be tolerated on any school campus, and will be prosecuted to the fullest extent of the law. Remember, we are not the ones making the rules/mandates, we are the ones required to follow/enforce them if we want to keep our doors open and students at school five days a week. Our staff have worked tirelessly to create the best possible school year for our students. They come early, stay late, and dedicate their lives to supporting each person as they walk in our doors. We have two goals this school year: (1) to keep all students and staff safe, and (2) to keep our doors open! It is truly that simple.

I beg that we do our best to set all feelings aside and look at what is best for students. We know emotions are high, and conversations are intense. We must promote and support school environments that are compassionate and sympathetic. I encourage you to connect with someone in our school community you feel comfortable confiding in to create a safe place to vent and obtain clarification as needed. The mandates are forever changing so understanding current requirements is critical. Staff will support you and listen at all times when communication is appropriate.

My door is always open if needed. Please reach out any time! We are in this together and will continue to have a far better school year than previously if we work collaboratively with our intent set on student success.

Thank you for your understanding and support!
Sincerely,

Torie F. Gibson, Ed.D.
Superintendent, ACUSD
