**Q2** The city of Omaha is currently working to implement a \$306 million plan to build a system of streetcars near the city center.

Supporters include Mayor Jean Stothert and most of the Omaha City Council, and they say this will jump start development and help Omaha compete for younger, college-educated workers who are looking for the benefits of urban living.

Opponents include Warren Buffet, who said the streetcar is too expensive and too inflexible, and others have pointed out that the streetcars will only be used by a small number of people who live and work downtown, at the expense of the rest of the city.

Given what you know now, do you support or oppose the city's plan to build a system of streetcars in downtown Omaha?
