

pay his military to guard his White House.
Tariffs again is merely money that he
sees going into his pocket as he owns the
government; and any cancelled projects is
just more money for him, or workers fired,
he pockets more money. I hope we can stop this
racist ICE hatred soon, as it is barbaric, if
we must storm the White House and take
someones head it is what we must do. I must
apologize to mankind and my fellowman for being
a constant failure - I am sorry. Sorry I missed
the vein in my neck also, barely - I suck; life
drag on, and I cannot fight. I will beg of Cannon
for an assisted-suicide state as I cannot bear
what our America has become.

Just imagine those millions of "No Kimp" protestors
storming the White House - Donald Trump is an illegal
resident and convicted felon that should be serving
time; the mob must remove him and put him
in jail, where he belongs.

It is extremely sad that that heartless moron
will let the Chinese - Xi slaughter all the Taiwanese
and do nothing - tragic. How did we let our
country get so far off track, with no morals or character
I do hope this is the land of the brave.
I hate we cannot feed the Sudanese and stop that
war. And how I wish we had a leader that would
actually create a Palestinian state. Sad that so
much human life depends on an idiot. Where are
the real leaders of the world? So Sorry Russ R. IL
