

AFFADAVIT

On Friday, 14 August 2026, at approximately 3:15pm, I called East Pennsboro Township Police Department about my neighbor, Janelle Stelson, who rents a home on [REDACTED] Camp Hill, and who, was once again walking around outdoors, naked in the public sphere, with her breasts and buttocks fully exposed and in plain sight of my minor aged grandchild who lives with me.

I took a photo with my phone of Ms. Stelson as proof and called the police because this had not been the first occasion of her impropriety, rudeness, and vulgarity. I witnessed her earlier in the summer outside in only a shirt and no undergarments, and became increasingly concerned about the effects on my grandchild who is on the autism spectrum and mirrors behaviors and actions.

When the police came to investigate, I provided them with the photo and account. They spoke with Ms. Stelson, who alleged that she was "...only in a nude bra and panties," which was a lie, as evidenced by the photo and what I personally witnessed. When police asked me, I declined to press charges in the hopes that the visit from law enforcement would finally stop Ms. Stelson's behavior.
