## STATEMENT FROM FORMER STAFFERS OF CONGRESSMAN ERIC SWALWELL

*Re: Support for Our Colleague and Calls for Accountability*

---

We, the undersigned former staffers of Congressman Eric Swalwell, write today with heavy hearts and unwavering resolve. The allegations reported by the San Francisco Chronicle and CNN are serious, credible, and demand accountability. We stand unequivocally with our colleague, who showed extraordinary courage in coming forward to share her truth. We believe her.

What has been described is not a political attack. It is the account of a young woman who trusted her employer, who was targeted and exploited by someone in a position of power over her, and who has carried this burden for years. The corroboration reported by both outlets, including medical records and multiple witnesses, makes clear that this cannot be dismissed or deflected. No statement, no cease-and-desist letter, and no claim of political motivation changes what our colleague experienced.

We call on all relevant law enforcement authorities to open a full and thorough investigation into the allegations against Congressman Swalwell without delay. No one is above the law. Not a congressman. Not a candidate for governor. No one.

We further call on Congressman Swalwell to immediately withdraw from the California gubernatorial race and to resign his seat in the United States Congress. The people of California's 14th Congressional District, and the people of this country, deserve representation from someone whose conduct reflects the values of public service. Remaining in either role while these allegations hang unresolved is an insult to every person who has ever worked for him, reported to him, or placed their trust in him.

To our colleague: you are not alone. We see you. We stand with you. We are deeply sorry that we did not know what you were enduring, and we carry the weight of that with us. Your bravery in speaking out has given voice to what many victims have feared to say, and we are grateful for your courage. We are appalled by his actions and stand firmly with you and every victim who has come forward.

Justice is not optional. Accountability is not negotiable. We will not be silent.

---
